

*"I came to Integrative Acupuncture in January 2008 on a fluke. I had recently been diagnosed with Hashimoto's Thyroiditis / Hypothyroid Disease, had a sports-related knee injury and was a breast cancer survivor loaded with negativity and depression.*

*After doing some research, I decided to seek acupuncture treatment and began asking around for a recommendation. One day at work, a local newspaper landed on my desk. Normally, I would just drop it in the trash, but for some reason I browsed through it. Inside was an article about Harmony Brown, Kimberly Marrone, and Integrative Acupuncture.*

*Immediately, I sent them an email outlining my problems and challenged them to fix me! The same day, I received a phone call from Harmony and I set up an appointment for a consultation. The quick response was most unusual, and Harmony's caring words were very comforting.*

*Harmony has been treating me twice a week ... and just lately cut down to once a week because I'm better ... with acupuncture, Chinese medicine, and TLC. Kim has also given me great insight and information on yoga, knee exercises, and increasing my sports performance. They are really quite a dynamic duo ... like no practitioners you'll ever know.*

*Their office is professional, immaculate, comfortable and beautifully decorated. Elizabeth Johnston, a masseuse / esthetician, also works out of the office offering another dimension of "health and rejuvenation for the whole body."*

*Harmony and Kim are smart, passionate, interested, understanding, motivating, committed, funny, and beautiful ... and although the last two items won't cure what ails you — it sure makes the experience all that much better!"*
